Form follows science

A high-performing, mid-priced task chair, Zody blends science-based wellness and comfort with sustainability and international design. The product of extensive research and development, only Zody offers asymmetrical lumbar adjustments, providing user-selected support on each side of the lower back.

ITO Design, in conjunction with the Haworth Design Studio, created Zody to incorporate design elements that complement, not dominate, any work environment.

For more information or technical assistance, contact your local Haworth representative or dealer or go to www.haworth.com

Only Zody Can Say...

1. First Chair with PAL™, a passive pelvic support, and a patent-pending user-selected asymmetrical lumbar support.
2. First Chair endorsed by the American Physical Therapy Association (APTA).
3. First Chair to be Cradle to Cradle™ Gold Certified Product by McDonough Braungart Design Chemistry.

Zody Awards & Achievements

Silver Best of NeoCon Award in 2005

Zody is designed to maximize ergonomics, sustainability, design, and comfort with a cradle-to-cradle environmental design protocol. Zody is a beautiful, high-performing, middle-of-the-market task chair with a unique, patent-pending asymmetrical, lumbar support system.

Best of NeoCon Canada 2005

Zody won Gold in the Seating: Desk/Workstation Chairs category adding to the winning streak at IIDEX/NeoCon Canada.

Gold McDonough Braungart Design Chemistry (MBDC) Cradle to Cradle™ Product Certification

Zody is manufactured with sustainable materials, components, and systems including appropriate energy usage, water usage, and socially responsible corporate practices. The MBDC certification process places emphasis on the human and ecological health impacts of a product's materials and its ability to be recycled. The quality of energy used to create a product is also essential. Zody is the first chair to earn this global certification.

American Physical Therapy Association (APTA)

Zody is the first chair endorsed by this association and is only task chair on the market that provides asymmetrical lumbar support without forward displacement.

2005 GOOD DESIGN™ Award

This award was founded in 1950 and presented by the Chicago Athenaeum Museum of Architecture and Design recognizing new and innovative product concepts. It is one of the oldest and most important design competitions worldwide. Zody was chosen for an award among hundreds of submissions from all over the world ranging from an airplane to a paper clip.

GREENGUARD® certified

Zody materials, designed to maximize human and ecological health, contain up to 51% recycled content and are up to 98% recyclable at the end of the chair's life.

100% Green-e wind power

Using this renewable energy source in manufacturing, Zody prevents the emission of 1,423,000 lbs. of carbon dioxide in the first two years, equivalent to taking 124 cars off the road. The manufacturing plant is environmentally certified (ISO 14001, since 2000). Zody is PVC-free, chrome-free, and CFC-free.

2006 International Design (I.D.) Magazine Annual Design Review

Zody received an Honorable Mention in the Furniture Category.

2006 Industrial Design Excellence Award (IDEA). Zody won the silver award.

2006 Australian Environmental Choice Award. Zody is the first office furniture product to receive certification for international environmental standards as part of the GECA (Good Environmental Choice Australia) and Australian Ecolabel Programs.
